Individual enterprise - EGON - P.I.01420510503 dal 1998

Profile

I have been working in the field of contemporary jewellery design for 20 years, primarily with silver, gold, pearls and diamonds which I often pair with contrasting materials such as wood and enamel. Recently, I've also been using bronze which lends itself well to more sculpted pieces. I also create large sculptures using steel based on a particular item of jewellery such as a bracelet, ring or pendant.

Experience

2014 to present, creation and running of online shop www.steniagioielli.it

Goldsmith, Verneegon; Pisa, Italy - 2001 - 2014
