Ursula Corsi

Tuscany, Italy — Mosaicist

Ursula Corsi Mosaici

I was born in 1970 in Seravezza, a small town near Lucca. I studied artistic mosaic in Pietrasanta's historic workshop Favret as well as in Spilimbergo (two of the major hubs of mosaic production in the world), and mosaic restoration and maintenance in Faenza. Since then I have been involved locally and internationally to create both private decorations and public sculptural pieces. Collaborating with different artists and designers, I fashion unique and evocative decorative pieces.
